### Streaming Video Collections

[Website](#)

[Learn360 Trial](#)

With an appealing new design, enhanced functionality, and an improved user experience, *Learn360* is the ultimate streaming multimedia resource for the K-12 educational market—the complete district solution. Teachers, students, and parents can access more than 182,000 media resources on any Internet-enabled device, anytime, anywhere, and engaging content landing pages make it easy to find the wealth of videos, interactives, printables, audio content, and maps and flags. The entire site and all landing pages can be filtered by grade level (all grades, elementary, or middle/high) for targeted browsing.

[Website](#)

[CVOD Trial](#)

*Classroom Video On Demand's* Master Curriculum Video Collection serves the specific needs of students who are preparing for college by providing top-quality video across the entire high school curriculum, including life skills and guidance. This specially curated collection is ideal for high schools that want targeted content, tailored specifically to their level, rather than a collection that pools the entire range of K-12 content into one platform.

### Secondary Resources

[Website](#)

**NEW!**

[Science Online Trial](#)

With a wealth of content and a dynamic design that facilitates STEM research and learning, the award-winning *Science Online* offers a comprehensive overview of a broad range of scientific disciplines. Topic Centers feature specially selected content on core science disciplines to help students find a starting point for their research. Students can also access the full, updated content of our unique science eLearning Modules, which target a variety of core topics and feature valuable Teacher Support materials for seamless in-class integration.

[Website](#)

**NEW!**

[Today's Science Trial](#)

*Today's Science* bridges the gap between the science taught in class and real-world discoveries—giving in-depth explanations of important advances in biology, chemistry, environmental science, space, physics, and technology. Featured articles offer easy access to related content such as crossword puzzles, cartoons, and questions; additional articles that help place news and discoveries in context; and interviews with scientists that bring the research to life. An extensive backfile dating back to 1992 illustrates how one scientific advance leads to another; the stories focus on the questions scientists ask themselves and, in doing so, reinforce science educators' traditional emphasis on the

scientific method. This essential STEM resource shows how the scientific method can be applied to everyday life, helping users think like scientists—applied science in a nutshell.

[Website](#)

[Bloom's Literature Trial](#)

[Website](#)

[Source Reference Free Trial](#)

*Bloom's Literature* is rich with relevant content on the core authors and works most studied in the high school curriculum. Students will find exactly what they need without having to wade through an uncurated search. Educators will appreciate the thoughtful organization and important curriculum tools to help with lesson plans, assignments, and independent study.

*Source Reference* integrates highly acclaimed reference content with instructional videos and tutorials to provide research instruction in the classroom and at the point of need. Prepare students for any kind of research or the rigors of academia by building their confidence and cultivating essential information literacy skills.

## Elementary Resources

[WAFK Free Trial](#)

A great complement to the award-winning *The World Almanac® for Kids*, *The World Almanac® for Kids Elementary* is an exciting, fun resource especially for elementary school students. This new database provides a wealth of elementary-level content—including engaging illustrated articles, videos, interactives, Fun Facts, and more—in a colorful, kid-friendly format perfect for helping young children develop online research skills. *The World Almanac® for Kids Elementary* includes exclusive, online-only material as well as content from award-winning Chelsea House and Facts On File sets and series—sources students, educators, and librarians can trust. It also features helpful teacher resources, including worksheets, graphic organizers, and classroom management forms educators can use with any lesson, plus science diagrams and projects to help reinforce lessons in a fun and engaging way.

With a dynamic new design, new and updated content, and exciting new features, *The World Almanac® for Kids* is the ideal one-stop reference resource for intermediate-level students. Brand-new modules and a wealth of new content have been added, along with more than 50 new interactive games, more than 100 new videos, and many other enhancements. Plus, the convenient new search filters make it even easier for students and teachers to find the content they need most.

Erasing the line between homework support and fun exploration, *The World Almanac® for Kids* includes exclusive online-only material as well as content from award-winning Chelsea House and Facts On File sets and series. Each topic area provides resources for homework, reports, and projects, and kids can explore age-appropriate subjects while developing online research skills with a trusted content source.
