ALEKS (K–12) ❤

ALEKS is an online assessment and learning program for grades 3–12. Using adaptive questioning, ALEKS identifies precisely what a student knows and doesn't know within a course. Through personalized instruction on the exact topics each student is most ready to learn, ALEKS effectively targets knowledge gaps enabling immediate success in mastering new material.

$23.20 per student (no minimum)

INFOBASE LEARNING (K–12)

Order based on total K–12 school enrollment.

Bundle A: Learn360 and World Almanac
$4.45 per student bundle license

Bundle A2: Learn360/World Almanac For Kids/ World Almanac for Kids Elementary
$5.60 per student bundle license

Bundle B: Learn360 and Classroom Video OnDemand
$4.45 per student bundle license

Classroom Video On Demand's Master Curriculum Video Collection serves the specific needs of students who are preparing for college by providing top-quality video across the entire high school curriculum, including life skills and guidance. This specially curated collection is ideal for high schools that want targeted content, tailored specifically to their level, rather than a collection that pools the entire range of K–12 content into one platform.

Learn 360 With over 150,000 media assets for teachers and students. Learn360 is a comprehensive K–12 multi-media resource.

The World Almanac® for Kids is the ideal one-stop reference resource for intermediate–level students. Brand–new modules and a wealth of new content have been added, along with more than 50 new interactive games, more than 100 new videos, and many other enhancements.

The World Almanac® for Kids Elementary is an exciting, fun resource especially for elementary school students. This new database provides a wealth of elementary–level content—including engaging illustrated articles, videos, interactives, Fun Facts, and more—in a colorful, kid-friendly format perfect for helping young children develop online research skills.

The MailBox® School & District Make learning fun while teaching core skills with thousands of worksheets, crafts, forms, songs, games, graphic organizers, patterns, clip art, cards, and more for PK–6. All content is editor-reviewed and created by teachers for teachers with new content added regularly.

$2.75 per student
(Order based on total school enrollment.)

Source Reference
A student's first stop for building research skills, Source Reference integrates quality reference content with instructional videos and tutorials to provide research instruction in the classroom. Prepare students for the rigors of academia or any kind of research, building confidence and cultivating information literacy skills.

$2.85 per student
(Order based on grades 6–12 enrollment.)

Blooms Literature (6-12) Bloom's Literature is rich with relevant content on the core authors and works most studied in the high school curriculum. Students will find exactly what they need without having to wade through an uncurated search. Educators will appreciate the thoughtful organization and important curriculum tools to help with lesson plans, assignments, and independent study.

$3.90 per student
(Order based on grades 6–12 enrollment.)

Science Online (6-12) With a wealth of content and a dynamic design that facilitates STEM research and learning, the award–winning Science Online offers a comprehensive overview of a broad range of scientific disciplines. Topic Centers feature specially selected content on core science disciplines to help students find a starting point for their research. Students can also access the full, updated content of our unique science eLearning Modules, which target a variety of core topics and feature valuable Teacher Support materials for seamless in-class integration.

$3.90 per student
(Order based on grades 6–12 enrollment.)

Science Today (6-12) Today's Science bridges the gap between the science taught in class and real-world discoveries—giving in-depth explanations of important advances in biology, chemistry, environmental science, space, physics, and technology. Featured articles offer easy access to related content such as crossword puzzles, cartoons, and questions; additional articles that help place news and discoveries in context; and interviews with scientists that bring the research to life. An extensive backfile dating back to 1992 illustrates how one scientific advance leads to another; the stories focus on the questions scientists ask themselves and, in doing so, reinforce science educators' traditional emphasis on the scientific method. This essential STEM resource shows how the scientific method can be applied to everyday life, helping users think like scientists— applied science in a nutshell.

$2.85 per student
(Order based on grades 6–12 enrollment.)

IXL (K–12) ❤
